CCS Constructors, Inc.

Celebrating 59 Years 1967 – 2026

## A Year In Review

Stowe Bridges, Double Tree Hotel Expansion, City Place Garage, Railroad Bridges in Rockingham, Culvert work in Dannemora, Water tower replacements, hauling of equipment, cranes and crew all over the State of VT, NH and NY. Crews worked tirelessly to maintain equipment and uphold CCS integrity both on-site and in the shop. These jobs may be in the rearview but are not forgotten. As we look forward and see new jobs on the Horizon, we take with us the experiences of the past, like steppingstones for building a stronger future here at CCS. The new season and a new year are upon us. May we all become stronger & healthier in both work and family lives!

## \*In The Works\*

**\*Wolcott, VT** – CCS is working with VTrans and the Town of Wolcott on the replacement of Bridge #6 on School Street that crosses over the Lamoille River. Traffic will be maintained on an offsite detour during construction. See pictures.

**\*Hardwick Pedestrian Wall & Bridge**– CCS is working with the Town of Hardwick for a rebuild & replacement of the pedestrian wall & bridge with access on South Main Street & the Daniel's Block in Hardwick. The bridge crosses the Lamoille River. Work will continue into the Fall of 2026.

**\*Crane Services** – CCS is consistently engaged in smaller contracts to provide specialized crane services all over VT, NY & NH

**\*Porters Point School** – CCS is working with PC Construction in Colchester @ the elementary school. Crews are actively working on erecting a 50,000 sqft addition to the elementary school, which includes 3-levels of structural steel and metal decking. This work is expected to continue into 2026.

## \*Looking Ahead\*

**\*CCS will be working with LeChase Construction Services** on setting hollow core precast pieces at Union College in Schenectady, NY

**\*CCS will be working with JeDunn** at Global Foundries

## NEWS WORTHY NEWS

CCS Constructors, Inc. is proud to give a shout out to all those that work “behind” the scene. Whether you are in the shop maintaining equipment or inspecting for safety or in the office quoting & bidding on jobs, ordering materials, parts & equipment, organizing payments to and from vendors & customers, or just helping make things flow; CCS Constructors Inc wouldn't be able to get it done without you. **Thank you for all you do Team!!**
