

The Outrigger

CCS Constructors, Inc.

Celebrating 59 Years 1967 – 2026

Spring Is Upon Us

As we say farewell to the blustery, cold, wintry days and welcome signs of Spring, let's all remember to keep our safety practices in mind at all times.

Leadership & Productivity is driven by a workforce set on Teamwork & Safety.

We help build and shape the world for tomorrow. All of us are part of CCS's today's better tomorrow. Be part of today's safety measures; stay sharp & alert, wear your safety gear and work as a team. There's always room for improvement. Let's help each other become the best!

In The Works

***Wolcott, VT** – The progress moves forward as CCS continues to work with VTrans and the Town of Wolcott on the replacement of Bridge #6 on School Street that crosses over the Lamoille River. Traffic is being maintained on an off-site detour during construction.

***Hardwick Pedestrian Wall & Bridge**– CCS is working with the Town of Hardwick for a rebuild & replacement of the pedestrian wall & bridge with access on South Main Street & the Daniel's Block in Hardwick. The bridge crosses the Lamoille River. Work will continue into the Fall of 2026.

***Porters Point School** – CCS is working with PC Construction in Colchester @ the elementary school. Crews are actively working on erecting a 50,000 sqft addition to the elementary school, which includes 3-levels of structural steel & metal decking. Work is expected to be completed in Fall 2026.

***Crane Services** – Since the beginning, CCS has been consistently engaged in smaller contracts to provide specialized crane services all over VT, NY & NH

Looking Ahead

***CCS will be working with LeChase Construction Services** on setting hollow core precast pieces at Union College in Schenectady, NY

***CCS will be working with JeDunn** at Global Foundries
