FALL FOLIAGE IN ALL ITS SPLENDOR!!

Fall is upon us with all of its fabulous colors as the hot days of summer fade away. However, for the CCS employees at the various job sites, Fall brings the perfect weather for crews to work in with cooler temps in what feels like the perfect environment!!

Projects in Process

Lyndon, Vt. – Work continues on two bridges in Lyndon on the Red Village Road. The precast abutments and Next Beams are being set on bridge #17. The Next Beams for bridge #13 will be set on September 30. The crew will also backfill next to the abutments and line the stream with stone.

Bridge Work in Lyndon

Stowe, Vt. – CCS continues to work with the bridge in Stowe Hollow. The concrete work has been completed and beams erected in place. The next step is to have the guardrails installed and the temporary bridge removed. It is anticipated that the bridge will be complete by the end of October.

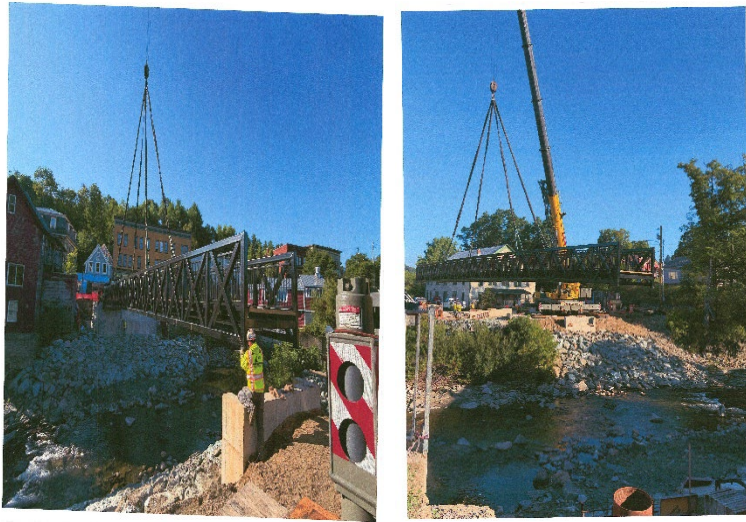

Stowe North Hollow Road

Bridge work in Wolcott

Wolcott, Vt. – As seen in the photos to the left, we see work being completed at the bridge in Wolcott. The pavement was laid and the final punch list completed. The bridge officially opened on Friday, September 25th.

Hardwick Pedestrian Bridge

In the photo on the left, CCS crane is hosting the new pedestrian bridge into place as workers look on. You can see the expanse of the new pedestrian bridge being erected as progress continues. Coming next will be new curbs and sidewalks that will be installed along with pavers this week. CCS will wrap up with their final checklist and inspection as they look to complete the project by the end of October.

Alpine Snowguards set this item in place utilizing CCS Crane Rental Service.

This bridge being hosted over the Onion River in Marshfield also utilized CCS's Crane Rental Service.

PROPOSED PROJECTS

CCS will be submitting a bid for a bridge replacement in Chelsea, Vt., as well as a bid for the new basketball arena at UVM. In January of 2027, CCS will also begin work on a new project with Global Foundries.

DID YOU KNOW.....

Presidential Seal of the United States

Fun Fact: Two United States presidents came from the State of Vermont. The first was Chester A. Arthur who was born in Fairfield, Vermont and served a four-year term from 1881-1885. The second was Calvin Coolidge who was born in Plymouth Notch, Vermont. He served for six years from 1923-1929. Coolidge took the presidential oath of office at his family home by kerosene light administered by his father, who was a notary public.
